

# Are Summer Marriages Popular\*

## Toronto Marriages Deepdive

Siddharth Gowda

September 19, 2024

Marriage can be one of the best days in a person's life, but it can be a hassle getting all family members together. So, people choose specific times to make sure some of their relatives can make it. So we wanted to know if summer marriages are more popular in Toronto because maybe people are more likely to take time off. We found that this is not the case. Marriages seem to be pretty evenly common across months in Toronto.

## 1 Intro

You can and should cross-reference sections and sub-sections. We use R Core Team (2023), Gelfand (2022)

## 2 Getting Data

```
# CREATING BAR CHART for marriages by month

marriage_data <- read_csv("../data/analysis_data/clean_marriage_data.csv")
head(marriage_data)
```

```
# A tibble: 6 x 3
  month marriages is_summer_month
  <chr>      <dbl> <lgl>
1 APR           45 FALSE
```

---

\*Open Data Toronto

2	AUG	44	TRUE
3	DEC	43	FALSE
4	FEB	46	FALSE
5	JAN	42	FALSE
6	JUL	43	TRUE

### 3 Bar Chart

Here is the graph [Figure 1](#)

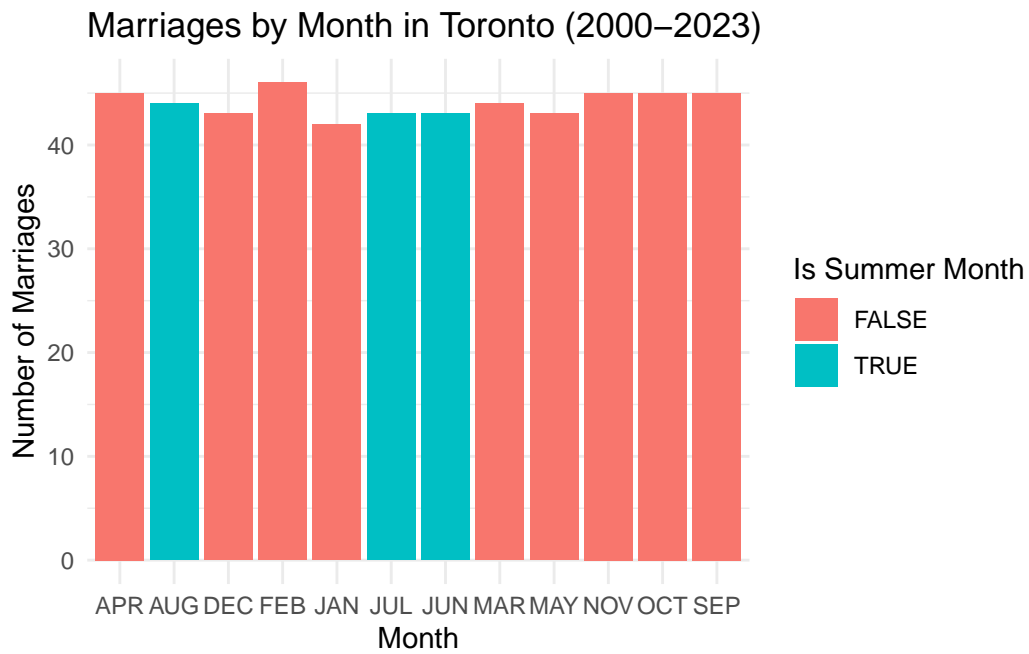

Figure 1: Summer months do not appear to have more marriages
